AN EXPLORATION OF CONTRASTS

Blurring artistry and function, Arteriors Spring 2026 is a study in contrasts; layering a myriad of materials, shapes and global influences into unexpected and beautiful pieces that transform living spaces into living galleries.

Strong angles play against soft contours, organic forms offset geometric precision, glistening crystal complements natural stone and metal. Building on nearly four decades of design leadership, this assortment of lighting, furniture, wall décor and accessories is crafted to command a room and bring the environment to life.

This season invites discovery, from the latest guest designer series to the striking multi-drop chandeliers that transform scale and presence. Beloved designs return in updated proportions and finishes, while a new generation of cordless rechargeable lighting brings freedom, flexibility and refined glow to every space. Journey into a collection shaped by exploration, craftsmanship and light.

BARRY DIXON

FOR ARTERIORS

Drawing inspiration from his love of the natural world, the Spring 2026 capsule collection by renowned interior designer Barry Dixon embodies elegance, drama and boundless imagination. Rooted in organic influence, this assemblage of forms is revealed through sculptural silhouettes and refined materiality.
